PROJECTS

Employee Management System 🐙 [GitHub](#)

Developed a web application to manage employee records, including attendance tracking and salary management. Implemented CRUD operations, responsive design, and form validation to improve efficiency and reduce manual errors.

Streetlight Management System 🐙 [GitHub](#)

Built a two-module platform to digitize streetlight services and streamline operations. The Admin Portal manages employees, tracks attendance, and automates salary processing, while the User Portal enables product browsing, secure payments, and complaint handling.

Travel Eva (UI/UX) 🎨 [Figma](#)

Designed a mobile app interface for booking travel tickets and accommodations. Created intuitive user flows, clean visuals, and a minimal-step booking process for a better user experience.
